

Please do not expand the LPFM service in such a way that LPFM stations would take priority over current FM translator service. The station on which I truly depends, K-LOVE, relies heavily on FM translators. I cannot adequately express how much I depend on K-LOVE. Its Christian message sustains me through good and bad days, alike, and I do not want to think about life without it. My community desperately needs what KLOVE offers, especially since so much of the media promotes sad lifestyles or provides meaningless "fluff." The children of my community are really at risk and need everything KLOVE can offer to keep them focused on God. The service provided by KLOVE is definitely in the public interest. KLOVE provides all that is good. Please do not allow expansion of the LPFM service to take KLOVE off the air in any market. Our world is depending on its message.
